# How to Fold the Flag

- **To properly fold the Flag, begin by holding it waist-high with another person so that its surface is parallel to the ground.**

- Fold the lower half of the stripe section lengthwise **over** the field of stars, holding the bottom and top edges securely.

- Fold the flag **again** lengthwise with the blue field on the **outside**.

- Make a triangular fold by bringing the striped corner of the folded edge to meet the open (top) edge of the flag.

- Turn the outer (end) point inward, parallel to the open edge, to form a second triangle.

- The triangular folding is continued until the entire length of the flag is folded in this manner.

- When the flag is completely folded, only a triangular blue field of stars should be visible.
