

Family Disaster Preparation

“Prepare for a disaster before it happens”

YOUR FAMILY

- Does your family have a disaster plan?
- Do you have a disaster supply kit for your family?
- Have you designated and shared the “meeting” place should your family be separated during a disaster?
- Have you shared the central point of contact for other family and friends to check on your family’s safety?
- Have you and your family discussed disasters and preparation?
- Have you made plans for your pets?

Family Disaster Preparation

“Prepare for a disaster before it happens”

YOUR HOME

- Have you checked your home for material and items that might pose a hazard during a disaster?
- Have you located and learned how to turn on and off utilities such as gas and electricity?
- Have you installed and checked smoke and carbon monoxide detectors in your home?
- Does your home have necessary resources such as hose, fire extinguishers, etc?
- Have you developed a plan with your neighbors on how you will assist one another should a disaster hit your community?
