

Assessment

Survival: Tools

Name _____

The task: Using the materials around your home (only natural materials, nothing man-made) make one of the tools mentioned in the class you took on survival tools. Talk to your commandant about whether you should bring the object in to class, or whether you should take a photograph of it and bring it in. Remember, all schools have rules against weapons, so be careful NOT to bring in one of the tools without your commandant's permission.

The rubric: You will be graded on the following (one point each):

- I used only natural objects (nothing man-made). _____
- My tool actually does the job it is supposed to do. _____
- The tool is sturdy (well-built, does not easily fall apart). _____
- The tool I constructed shows I put a lot of thought into its design. _____

Grading scale:

4 = A
3 = B
2 = C
1 = D
0 = F
