

# Dominant Eye

To ensure that the bullet will travel to the target in your sight, it's necessary to sight-in your rifle, but before you can do that, you need to determine your dominant or "master" eye.

# Dominant Eye

First Form a triangular opening with your thumbs and forefingers

Stretch your arms out in front of you

Focus on a distant object while looking through the triangular opening

Bring your hands slowly to your face, keeping sight of the object through the opening; the opening will naturally come to your dominant eye

# Aligning an Open Sight
