---

---

---

---

---

---

---

## Guard Duty

Guard duty is established to protect equipment and areas which require protection and care.

There are two types of guard duty:

- Exterior
- Interior

---

---

---

---

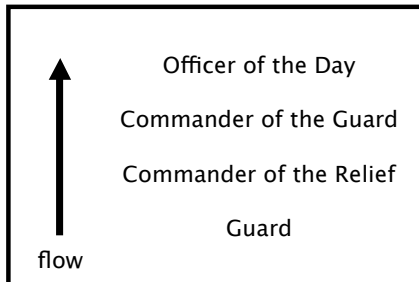

---

---

---

---

## Guard Duty Chain of Command

---

---

---

---

---

---

---

---

**Organization of Guard Duty**

Guards are assigned to specific post or shift  
Guards shift should last no more than 2 hours  
They work in teams of at least 2 Cadets  
Cadets follow the 3 General Orders

---

---

---

---

---

---

---

---

**General Orders**

I will guard everything within the limits of my post and quit my post only when properly relieved

I will obey my special orders and perform all my duties in a military manner

I will report all emergencies, violations of my special orders and anything not covered in my instructions to the commander of the relief

---

---

---

---

---

---

---

---

**Duties of a Guard**

Never leave your post until you are relieved

The guard is responsible for everything within the limits of the post

The guard must stop persons who have no authority to be in the area. These individuals are reported to the commander of the relief

The guard on duty has full control. A higher-ranking cadet not assigned to guard duty has no authority to give orders to a guard

---

---

---

---

---

---

---

---

**Duties of a Guard**

(continued)

If a guard becomes sick, a relief must be assigned by the commander of the relief

Guards will pass on their instructions to their relief

Only during over night post the guard must challenge all people entering their assigned limits. If the guard does not recognize an individual the guard should asks "Who is there?" If the individual is not authorized in the area, the intruder is reported to the commander of the relief

A guard must report all violations or emergencies to the commander of the relief
