

ASIAN AMERICAN CULTURE

Who are Asian Americans?

East, Southeast, and South Asia as opposed to those of Southwest Asia such as Arabs, Turks, Iranians, and Kurds who are more usually designated Middle or Near Easterners. Indonesians and Filipinos are properly termed Asian, since their island groups are considered part of the Asian continent, but not the Melanesians, Micronesians, and Polynesians of the central and southern Pacific, who are now often referred to collectively as Pacific Islanders.
