

Assessment

How a Bill Becomes Law in California

Name _____

Use the information you have gathered from class lectures to draw a “flow chart/diagram” showing how a bill becomes a law in California. Your diagram will be evaluated as follows:

A = All steps in the process are present in the correct order and the diagram is neat and easily understood

B = All steps in the process are present in the correct order but the diagram is somewhat unclear

C = All steps in the process are present but two steps are inverted and/or the diagram is very difficult to understand or is very sloppy

D = Most steps in the process are present and several are out of order. The diagram may be very difficult to interpret.

F = No or minimal diagram is present or it is very inaccurate
